"Each song is an emotional journey through the human experience. May it slow you down — and may it also move you beyond the confines of yourself."

ABOUT

Linarex is a Dominican drummer, composer and producer based in Warsaw, Poland. With more than 20 years behind the kit, he writes and produces every track — and now brings **his own voice** to the songs, while still opening the door to guest vocalists. Across **rock, funk, afrobeat and folk**, his work follows one question: what does this emotion sound like?

"I create universal emotions that connect souls, and search for the voice that can set them free. Always looking for talented artists to create something unique together — and to explore new sonic territories."
